

Hello!  
My name is Alexander and I work with the **ApiX-Drive affiliate program**.

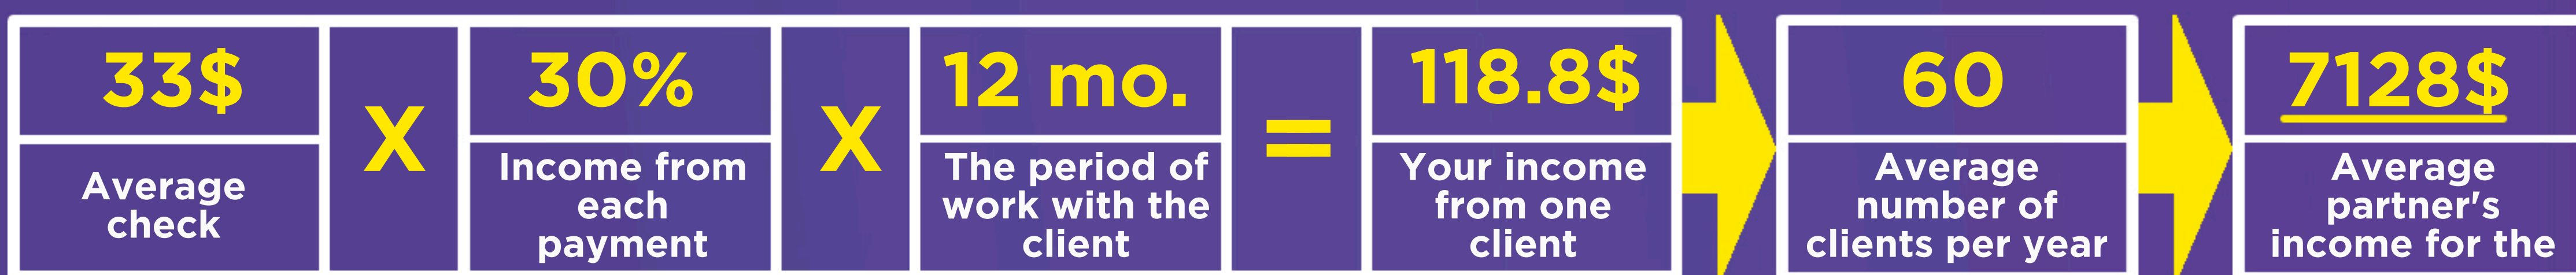

Our service is a **unique** development, which is an **online constructor** of integrations of various **services** and applications to **automate** business processes. In other words, it is a way to "make friends" between different services and systems. Our system **allows you to independently**, without the **involvement** of a programmer, set up automatic data transfer from one service to another. **ApiX-Drive** it is the platform that significantly automates routine tasks simply, quickly and reliably.

**For example, a user can:**

- upload orders and data from feedback forms from your site to the CRM system or Google Docs
- **unload leads from Facebook** to a **CRM system** or **Google Docs** and send a notification to **Telegram** to the manager, **at emergence of each new order**
- **track and update parcel statuses** through delivery services, **and more.**

Currently, **more than 300 integrations** have been launched on the **ApiX-Drive platform**, and now we are looking for **partners** with whom we can safely **move forward** and **develop** according to the win-win principle. We value long-term cooperation, therefore we provide you with the most **excellent conditions** for starting.

Let's consider your potential earnings:

Working under an **affiliate program**, you will receive a number of **opportunities and benefits**:

- one of the **highest % in the market**, which from the **start is equal to 30%** of all payments of the **attracted client**
- **quick** withdrawal of **earned funds**
- the most simple and flexible terms of cooperation
- a **convenient partner account**, where you can easily track statistics of **payments and your income**
- we **store cookies for 1 month** - users who followed the link will be assigned to you for 30 days
- work with an interesting, **demanded and promising product**

I see our cooperation in the following areas:

- **articles, reviews and news\*** - post information about the new automation service on your website or blog
- **announcements of your events and courses\*** - use information about our service as a tool of automating
- **info-banners\*** - place our banner on your website or blog
- **email marketing\*** - include information about our service in a series of mailings to your subscribers
- **information and news posts\*** - post information about us on social networks and telegram-channel
- **during events\*** - your speakers talk about new and unique technology, which increases the efficiency of online promotion.

\*all the necessary information, materials or examples of application will be prepared and provided by our team

We are interested in **native advertising** in order **to communicate with your audience** and convey to it the main value of the ApiX-Drive platform is that **for a minimal fee, you can avoid long and expensive stages** of integration, **programming** and debugging. **"Everything has already been done for you!"**

The average bill for ApiX-Drive subscription is **33\$ per month**, which makes it easy to attract new customers every month. **To earn 7128\$ of passive income per year, it is enough to attract 5 clients per month**, because Your income in the amount of **30% of the client's payment is not one-time**, but continues to be paid **while the client is with us.**

**5 clients** per month who pay **33\$** for a unique constructor of integrations **is it a lot** or just the **beginning!?**

I will be glad **to discuss with** you all possible **options for interaction** and **provide** all the necessary information **on the service** and **affiliate program!**

Best wishes,  
Alexander Shamin
